FRIDAY, Feb. 24. SUPERIOR COURT .- Before Judge OAKLEY .iklen Sophia Lispenard and others vs. Robert Stewart .-M., O'Conker continued his address yesterday to the period a recess, having spoken nearly five hours. He was tollowa by David P. Ogden, on the part of defendant, who occuyou some hours in a most able and powerful address. Mi Noos succeeded Mr. Ogden, and spoke for about two hours ha most impressive manner on behalf of plaintiff. He will close this forenoon.

Before Chief Justice Jones .- Alexander Grant vs Ephraim Stevens - This was an action against Justice Stevers for talse imprisonment and tresspass, the damages laid \$ 20,000. The plaintiff employed Mr. Nestel, tailor, Maidtaisac, to make some garments for him, (Grant furnishing the closs) the price of which was to be \$33. The garments were sent by a boy to plaintin's house in Broome street, with directions not to reave them unless the mency was pant theat, however, kept the clothes, giving to the boy two promissory notes which he asserted to be due by Nes bl. The latter, about 11 o'clook on Saturday a ght, procured a police officer and arrested Grant at his house on the tharge of 'false presences,' from whence they took him to he residence of Justice Stevens, and thence to the watchbonse, where he sented the claim. The complaint against Justice Stevens is that he stood at the head of the states flaving previously gone to bed) and told the officer to carly Grant to prison unless he gave up the clothes. Three other actions have also been entered by Grant agains Nenel, McComb the officer and Mr. Manchester the law-

yet 'Luz case will be continued to day. Isaac Jones and George Jones vs. John Gilmartin and Denois Gillespie .- The plaintiffs (the first, president, and the other a director in the Chemicai Bank) own property in South street, which they lot to Gumarum. He not being thie to pay his rent when it became due, Gillespie endorsed a note for him to the amount of \$250. Gilmariin tailed, the action is brought on the note. The delence is that no value had been received for the note by Gillespie, also that be signed it merely as accommodation, so that plaintiffs might get it discounted without their names appearing, and also that he told Mr. Geo. Jones on signing it that he would hever pay it. The counsel for plaintiff thought this story every way improbable. The Court charged that giving a note for extension of credit to a third party was valid contideration-and that a man could not get rid of paying a Dote be had signed merely from saying, at the time, that

Would not pay for it. Verdict for plaintiff, \$205 63. GENERAL SESSIONS-Before the RECORDER, Jacge Lynch, and Algermen Cholius and Jones. SENTENCE .- Michael Shey convicted of grand larceny, in stealing a trank belong ing to Mr. Furnham, from off the

CONSUMPION CAN BE CURED by SCHENCK'S PULMONIC SYRUP, and in proof that it has been, please read the following history of my our

case : Several years ago I was actually reduced to the Several years ago I was actually reduced to the last stage of this rightly named wasting drease, CONSUMPTION. having all the well known and strongly marked symptoms of hectic lever, hight sweats, excessive cough, and the raising of much blood and phiegm, together with emaciation and general debility, and thus continued to decline till physicians and friends utterly despuired of my recovery. I had tried aimost every known remedy, but with tittle or no effect, and it seemed only for me to await invitat acoroach. effect, and it seemed only for me to await my fast approaching and final release. At this late and critical period I was providentially visited by one of the aged decoduants of the Aborigines or natives of our constry, who, after exhibiting a familiar acquaintance with the medicinal virtues of botanic and vegetable remedies, kindly proposed to me to make use of an original prescription in the form of a Syrup. With much persuasion from several friends, (having been so often diappointed.) I reluctantly consented, and in the course of but a few weeks, to my attouchment and joy, I was fully convinced, by rapid convalescence, of the emacey of this new medicina, and still more wonderful as it did and of this new meaning and state meaths, by continuing its daily use. I was perfectly restored to good and sound health. As I continued to enjoy the incontestable proof that this remedy was superior to every other for the cure of that this remedy was superior to every other for the care of Consumption, I could not rest until I obtained (though at considerable cost and trouble) the necessary instruction and recipe for preparing it and, agreeable to my expectations, na ubers of my autoritine (ellow beings who were afflicted with the same malady, hearing of my extraordinary case and care, applied to me for the needline, and in like manner obtained relief, by which means it soon acquired such a reputation and demand, that I felt constrained

quired such a reputation and certain, that test constrained to give my whole and carful attention to its manufacture and diffusion and for the public sale of it, first occupied an office at Flemington, N. J. in 1839.

The demand increased so rapidly: after this, especially from a distance, that I found it somewhat inconvenient and even difficult to convey the medicine in all the various required quantities from that place, it being so remote from the transmission. I was therefore, induced quired quantities from that place, it seing so remote from any line of public transmission. I was, therefore, induced to temore to the city of Phitadelphia, and in consequence of the remarkable cures which have since been effect to the remarkable cures which have since been effect to have adde to make it fast enough to supply the calls and orders received. As it is no less a melancholy than a well-known, acknowledged fact, that this beretofore incurable though long protracted disease of Consumption, generally (if not invariably) originates from "bad cools," or more frequently from newlecting such colors, I would anxiously beg leave to from neglecting such coids, I would anxiously beg leave to assure all those predisposed to it from such causes, that the fact is equally established beyond dispute, that Schence's rulmonic S, rup is the best and only sure remesty yet dis-covered for removing speedily and effectually (especially in the earlier stages) every particle of disease from the pai-monary organs, and thus intercepting and preventing the faul ravages of this great destroyer. I am also happy to assure consumptive patients that the most delicate among them may take the Syrup (which is pleasant and palateathem may take this Syrap (which is preasant and parallel-bic) without the least tear or danger, as there is nothing stimulating in its composition, nor any thing of a positiouts, object, or narrootic character, as is the case with idost, if not all, those mediaines whice allord only temporary relief, and from their narcotic influence leave the poor sufferer in a

still more entrebled and worse condition.

The numerous elements and ingredients of which this Syrup is composed are all obtained from the great labora-tory of nature: Herbs, Roots and Barks, and are highly valued by the medical profession, according as they are

known. The young and the old-even the infant as well as the adult, have taken it with the same happy effect, as its ten-denry in every instance is to purify the system and eradi-cate the last remains of pulmonary disease. It has also proved an effectual remeity for Liver Complaints, and equally intallible for the cure of that very common and dis-tressing one of Dyspepsia, which often precedes Consump-tion.

NEW-YORK CASH TAILORING The undersigned, in announcing to their patrons their de-termination to adhere strictly to the principle of cash dealing in their business, would take occasion to say that they have become well satisfied of the practicability and usefulness of such a plan by the uniform success which has attended its operation in their house from the commencement. The advantages derived by the customer from the adoption of this system-thereby realizing a gain of 30 per cent upon credit prices-they conceive perfectly obvious, and therefore need no comment. Of the merits of their house and the facilities with which they are invested of farnishing a cheap and rich garment, they will not dilate-fully as-
